

YOUR WEALTH PLAN...

What nature protects, grows in abundance.

Do you often dream of abundant wealth? The wealth you create depends upon the magnitude of your dreams. However, wealth creation does not happen by chance. It needs a plan. A plan that builds and manages wealth. A plan that offers a wide choice of investment options that you can select from, based on your preferences. One such plan that builds your dreams is the Wealthsurance Dreambuilder Insurance Plan.

Just like the pomello has a thick, greenish - yellow exterior, that protects the inner fruit, the Wealthsurance Dreambuilder Insurance Plan combines wealth creation with the protection of insurance to form a powerful financial solution fully capable of delivering the financial backing to fulfil your dreams.

The plan ensures that your goals for wealth creation are achieved and remain unaffected, even in the face of serious misfortune or unforeseen events. The plan offers great flexibility that allows you to create wealth as per your specific needs and investment preferences. The Guaranteed Loyalty Additions are a significant benefit that aid and speed up the wealth creation process.

Wealthsurance Dreambuilder Insurance Plan comes with convenient premium payment amount choices ranging from a minimum premium of ₹ 25,000 and a maximum premium amount of ₹ 1,00,000 per annum which are payable in annual instalments.

Start planning for your dreams with confidence because the Wealthsurance Dreambuilder Insurance Plan combines wealth creation and insurance into a powerful combination that you can count on. Read on for more details of the insured wealth plan.

Wealthsurance®: Insured Wealth Plans to grow wealth under a protective cover

Wealthsurance offers you Insured Wealth Plans. They allow you to create, build and manage wealth by giving several choices and great flexibility so that your plan meets your specific needs. You can decide how you wish to save so that it suits your savings habit. You can choose how your money is invested so that you can grow wealth as per your investment preferences. What is even better, Wealthsurance protects your wealth plans with life insurance benefits so that your wealth-building efforts remain unaffected in unforeseen events and your financial goals can still be achieved.

What is Wealthsurance?

Wealthsurance combines wealth creation and insurance protection into one powerful financial solution. Unlike other investment alternatives, it allows you to ensure that your goals of wealth creation are achieved even in the event of serious illness, accidents, disablement or death.

Wealth Plan with a powerful range of Investment Choices

Wealth creation does not happen by chance, it needs a plan. Wealthsurance is a wealth plan which allows you to build and manage wealth. You can save into the plan as much money as you want, whether at regular intervals or as per your convenience.

Wealthsurance offers a wide choice of investment options from which you can select one or more, based on your preferences. The investment options we offer are designed to meet the needs of all types of investors depending upon their risk appetite, stage of life or investment horizon. You can choose options that give: (a) assured fixed returns, (b) variable returns linked to market performance or (c) returns linked to equity market but with protection of capital. Wealth grows in your plan, based on the options you have chosen.

Wealth Plan can be insured against unforeseen events

Wealthsurance can protect your Wealth Plan against a range of events such as death, 17 major diseases, sickness requiring hospitalisation, serious accidental injuries or total and permanent disablement. With other investment products, if any such event happens, you may not be able to save as planned or even be forced to withdraw from your savings. But in Wealthsurance, these benefits allow you to meet additional expenses without affecting your fund value so that your plans to save and accumulate wealth are not affected even if life throws surprises at you. Once you sign up for it, your Wealthsurance Plan works even if you are not able to. Wealth grows better under a protective cover because life's uncertainties cannot deplete wealth, which otherwise they would normally do.

Wealthsurance is for those who will live

Life insurance is sometimes thought of as for those who might die, but Wealthsurance is for those who will live. Usually life insurance products provide benefits upon death, but Wealthsurance is designed to also give Living Benefits to ensure your well-being in your own lifetime.

How does Wealthsurance work?

Wealthsurance gives you (a) Investment Account and (b) Insurance Account.

My Investment Account

The premiums you pay are invested post deduction of a premium allocation charge into the investment options you choose in the proportion that you specify. IDBI Federal InvestmentBasket contains all the investment options we offer. The balance in your Investment Account reflects the wealth built over time from your premium contributions and the returns from the investment option chosen by you.

My Insurance Account

You can also choose any of the insurance benefits we offer under IDBI Federal InsuranceBasket. You pay for only those benefits you choose and the charges are deducted from your Investment Account.

My Wealthsurance Plan: Get the one you need

Wealthsurance has many options so that you can choose what suits your circumstances. You can design your own Custom Wealthsurance Plan with 5 simple steps:

- Step 1: Choose the Premiums you wish to contribute
- Step 2: Choose the investment options your money goes into
- Step 3: Choose the Sum Insured for the Life Insurance Benefit
- Step 4: Choose the Optional Insurance Benefits you need
- Step 5: Choose the Policy Term based on your horizon for building wealth and for enjoying insurance benefits

Pay premiums in a flexible manner: Build wealth easily with convenient savings

Wealthsurance allows you to save in a manner that best suits your savings habit. It is very flexible in premium contributions. You can save in a disciplined manner and also get the flexibility to contribute additional amounts. Wealthsurance allows you to pay premiums for a limited period and yet enjoy insurance benefits for a long period. Flexible premiums allow you to build wealth in a convenient manner and also get tax benefits.

Types of Premiums

Wealthsurance has two types of premiums: (a) Basic Premiums and (b) Top-up Premiums.

(a) Basic Premiums

When you choose your Wealthsurance Plan, you have to indicate the premiums you wish to contribute. You have to indicate (a) Amount and (b) Payment Term for your Regular Premium. These are your Basic Premiums.

The minimum premium amount per year is ₹ 25,000 and maximum premium amount is ₹ 1,00,000 respectively, payable in annual installments. Minimum premium payment period is 5 years. The premiums payable cannot be altered during the term of the policy.

(b) Top-up Premiums

Over and above the Basic Premiums, you can pay Top-up Premiums. Minimum amount is ₹ 5,000 at a time and you can pay whenever you want and any number of times. Top-up premiums are not allowed in the last 5 years prior to the maturity of your plan.

Top-ups allow you to contribute additional premiums if and when you want to grow wealth at your convenience. Top-up Premiums can be paid only if you have paid all the Basic Regular Premiums due till date. Every Top-up premium will have a lock-in period of 5 years from the date of payment of that top-up premium.

Top-up premiums automatically increase sum insured

Whenever you pay Top-up premiums, we will automatically increase your sum insured based on your age on the date of the Top-up (a) By 125% of the Top-up premium paid, if you are less than 45 years old, or (b) By 110% of the Top-up premium paid, if you are equal to or greater than 45 years old. Thus you will also get enhanced life insurance cover when you pay Top-up premiums. Increase in sum insured is, however, subject to our underwriting guidelines.

Best of both worlds

Basic Premiums enable you to become a disciplined saver and invest in a systematic, methodical way to build wealth. Top-up Premiums give you the flexibility to contribute additional premiums whenever you have extra money so that you can reach your goals faster. Together, they give you great flexibility to save, invest and grow wealth.

Premium Allocation Charge

Premium Allocation Charge is deducted from the premiums you pay and the balance is invested in investment options of your choice.

Regular Premium – The premium allocation charge in the first year of the plan is 3.15% of the annual premium. There is no premium allocation charge from the second year.

Top-up Premium – The premium allocation charge is 3.15% of the top-up premium.

Eligibility Conditions

Any person over the age of 18 years can apply to us to take a Wealthsurance Plan. You can designate yourself or any other person (in whom you have insurable interest) as the Insured Person. The Insured Person should be at least one month old but not more than 65 years old. Age of the Insured Person cannot exceed 75 years at the end of Plan Term. Wealthsurance allows you to pay premiums and get tax benefits for yourself, while the insurance benefits can cover your spouse or child. Where the Insured Person is a minor, the policy will vest in the name of the life insured upon attaining majority at the age of 18 years.

Flexible Payment options

IDBI Federal InvestmentBasket®: Tools for building your wealth

The power of Wealthsurance is provided by the wide choice of investment options it offers. They give you great flexibility in how you build and manage wealth. The full range of investments we offer is called the IDBI Federal InvestmentBasket. You can choose one or more options from the basket based on your return expectations and risk tolerance. You can also switch and change your investment options, from time to time, as you wish.

The investment options we offer are designed to meet the needs of all types of investors. You can choose the options that best suit your needs of safety, liquidity and returns.

Fixed Return Options

We offer investment options that give fixed assured returns for those who prefer to get fixed or floating rate of return on their investment.

Dynamic Guaranteed Options

We offer investment options which invest in equity while guaranteeing a minimum Net Asset Value, on the specified maturity date. A part of the money is invested in stock markets and your returns depend upon the market performance. These are suitable for those who want to invest in equity markets, without fear of loss of principal.

Market Fund Options

We offer a range of funds that invest in stocks, bonds and money market. The returns on these funds are dependent upon the market performance. Returns and risk vary by the type of fund.

Types of Investment Options

We offer five types of Investment Options: (a) Monthly Guaranteed Interest Fund which gives interest at a declared rate on your balance in the fund, (b) Guaranteed Return Funds which give fixed, assured returns for a specified period, (c) Dynamic Guaranteed Funds which ensure that your principal is protected even while investing in stocks, (d) Market Fund Options where you can choose to invest in stocks, bonds or money market and get market returns, (e) Asset Allocator Options where you can leave the management of your funds entirely to us, by simply indicating the level of risk you are prepared to take.

Manage yourself or leave-it-to-us

We offer two ways in which you can manage your investments:

Do-it-yourself: You can decide to invest in the various options and change them from time to time, as you wish. This is suitable when you have a specific idea where you wish to invest or you have the time and inclination to manage your investments from time to time.

Leave-it-to-us: Alternatively, you can leave it entirely to us to manage your investment strategy from time to time by simply indicating how much risk you are prepared to take. We give you a choice of three risk levels: Cautious, Moderate and Aggressive.

The powerful InvestmentBasket®

Fixed Return Options: When you want fixed, assured returns

Investment Option	How does it work?
<p>A. Monthly Guaranteed Interest Fund Risk: Low</p>	<p>Monthly Guaranteed Interest Fund gives you a minimum guaranteed rate of interest on the balance in the fund. You can choose to deposit any proportion or all of your premiums into it, whether Regular or Top-up Premiums. You will earn interest at the minimum guaranteed rate or the NAV, whichever is higher on a daily basis. The balance in the fund, consisting of premiums deposited and interest earned or NAV whichever is higher, is available to switch into any other investment option and for withdrawals as permitted. The NAV will be published daily in accordance with the unit linked guidelines.</p> <p>Interest Rate: At the beginning of each month, IDBI Federal will declare a minimum guaranteed rate of interest for this fund. The minimum guaranteed rate of interest declared for the fund is available at www.idbifederal.com. The purpose of the Monthly Guaranteed Interest Fund is to provide a minimum guaranteed rate of interest to the investors from the investment income of the underlying portfolio.</p> <p>Investment Pattern: The Monthly Guaranteed Interest Fund is a segregated fund which will invest 100% of the money in fixed income investments including government securities, treasury bills, bank deposits, certificates of deposit, corporate securities, commercial paper, securitised papers, structured products, money market instruments, etc. The fund may use derivatives to meet its objective to the extent permitted by the applicable guidelines.</p> <p>Fund Management Charge: A fund management charge of 1.25% p.a. plus an investment guarantee charge of 0.15% p.a. will be appropriated while computing the Net Asset Value of the Monthly Guaranteed Interest Fund.</p>
<p>B. Guaranteed Return Funds Risk: Low</p>	<p>Guaranteed Return Funds give you an assured, fixed return for a specified period. Each fund matures on a specified date and carries a minimum Guaranteed Maturity Value for each unit. Each fund is available for investment for a limited period after the opening date during which units are allotted at the Net Asset Value. Upon maturity of the fund, you will receive the Net Asset Value as on the maturity date or the Guaranteed Maturity Value for the units you hold, whichever is higher.</p> <p>Available Funds: The available funds and the guaranteed maturity value for each unit that they carry are declared by us from time to time. You can select a fund from those available at the time you pay the premium. You can also switch into them when they are available. The available funds are given at www.idbifederal.com</p> <p>Liquidity: Guaranteed Return Funds mature on the specified date. However, if you wish you can redeem them before maturity at the Net Asset Value and the guarantee will not apply.</p> <p>Investment Objective: Guaranteed Return Funds are segregated closed-ended funds with specific maturity date and a minimum guaranteed maturity value per unit. They aim to generate a fixed return by investing in fixed income instruments with maturities close to the maturity date of the fund and follow a buy-and-hold strategy.</p> <p>Investment Pattern: These funds invest up to 100% of the money in fixed income investments including government securities, treasury bills, bank deposits, certificates of deposit, corporate securities, commercial paper, securitised papers, structured products and money market instruments. The fund may use derivatives to meet its objective to the extent permitted by the applicable guidelines.</p> <p>Fund Management Charge: A fund management charge of 1.25% p.a. plus an investment guarantee charge of 0.25% p.a. will be appropriated while computing the Net Asset Value of the Guaranteed Return Funds.</p>

Dynamic Guaranteed Options: You can invest in stocks without losing the principal

Investment Option	How does it work?
C. Dynamic Guaranteed Funds Risk: Medium	<p>Dynamic Guaranteed Funds provide minimum guarantee of the highest Net Asset Value (NAV) per unit achieved during the subscription period, on the specified maturity date. This will be the minimum guaranteed NAV per unit. As the fund starts at ₹ 10, the minimum guaranteed NAV on the maturity date will also not be less than the face value of ₹ 10 per unit. Thus your entry NAV per unit is protected. Returns are, however, not guaranteed and depend upon the performance of the equity portfolio of the fund and the stock market.</p> <p>Available Funds: Dynamic Guaranteed Funds are segregated closed-ended funds with specified maturity date. Each fund is available for investment for a limited period after the opening date during which units are allotted at the Net Asset Value. This limited period is called the subscription period. Upon maturity, you will receive the actual NAV per unit or the minimum guaranteed NAV per unit, whichever is higher, for the units you hold.</p> <p>The available funds are declared by IDBI Federal from time to time. You can select a Dynamic Guaranteed Fund from those available at the time you pay the premium. You can also switch into them when they are available. The available funds are given at www.idbifederal.com</p> <p>Investment Strategy: Dynamic Guaranteed Funds are managed using capital protection techniques including portfolio insurance strategies and manage the exposure to equity and debt with a view to obtaining equity exposure consistent with capital protection and the guaranteed maturity value. The funds will implement 'ratcheting' strategy as decided by IDBI Federal. Under 'ratcheting', when the Dynamic Guaranteed Funds have made returns over and above the amount needed to provide for guaranteed value, the returns may be 'locked-in' by investing in debt so that you are assured of those returns even if the market moves adversely in the future. 'Ratcheting' may reduce future exposure to equity. Dynamic Guaranteed Funds may also use derivatives to meet their objectives to the extent permitted by applicable guidelines.</p> <p>Investment Pattern: Dynamic Guaranteed Funds may invest up to 100% in equity or in fixed income instruments including cash and money market. The fund may use derivatives to meet its objective to the extent permitted by the applicable guidelines.</p> <p>Liquidity: Dynamic Guaranteed Funds mature on the specified date. However, if you wish you can also redeem them before maturity at the Net Asset Value, but the guarantee will not apply.</p> <p>Fund Management Charge: A fund management charge of 1.35% p.a. plus an investment guarantee charge of 0.60% p.a. will be appropriated while computing the Net Asset Value of the Dynamic Guaranteed Funds.</p>

Market Fund Options: For investing in stocks, bonds or money market

These unit linked funds are open-ended funds which invest in equity, debt or money market as per their investment objectives. The Net Asset Value (NAV) of each fund is published on a daily basis. You can invest your premiums into, switch into or switch out of any fund at any time at the NAV. Your gain or loss is the difference between the value at which you invested and the value at which you exit. In Market Fund Options; the NAV depends on the market value of the underlying investments. The expected return and risk vary by the fund. We offer the following funds:

Fund	Investment Objective	Investment	Pattern Allocation
D1. Equity Growth Fund Risk: High	Seeks to invest in listed stocks and aims to generate high returns by picking stocks that have growth prospects. It aims to diversify risk by investing in large cap as well as mid cap stocks and across multiple sectors.	Fixed Income Investments including Cash and Money Market Equities and Equity-linked Instruments	0 - 50% 50 - 100%
D2. Nifty Index Fund Risk: High	Nifty Index Fund seeks to invest in Nifty stocks in the index proportion as far as possible and subject to any investment restrictions in applicable regulations.	Fixed Income Investments including Cash and Money Market Equities and Equity-linked Instruments	0 - 20% 80 - 100%
D3. Midcap Fund Risk: High	Seeks to invest in mid cap stocks with attractive growth prospects. It aims to diversify risk by investing in large cap as well as fixed income investments when required.	Fixed Income Investments including Cash and Money Market Mid cap stocks Large cap stocks	0 - 50% 50 - 100% 0 - 50%
D4. Pure Fund Risk: High	Seeks to invest in listed stocks and aims to generate high returns with medium to long term perspective by picking stocks that do not belong to certain sectors engaged in activities which are considered harmful for society at large. Examples of these activities include gambling, speculative investments, tobacco and alcohol.	Equities and Equity-linked Instruments Fixed Income Investments including Cash and Money Market	80 - 100% 0 - 20%
D5. Bond Fund Risk: Medium	Seeks to invest in fixed income investments and aims to generate returns from interest coupons and the opportunities in changing yield curve. The duration of the underlying portfolio may be high or low, depending upon the market conditions.	Fixed Income Investments including Cash and Money Market	100%
D6. Income Fund Risk: Low	Aims to generate a return by seeking to invest in fixed income investments that carry low or medium market risk.	Fixed Income Investments including Cash and Money Market	100%
D7. Liquid Fund Risk: Low	Seeks to invest in overnight money and other money market instruments.	Money Market, Cash and Short-term Debt	100%

Asset Allocator Options: When you want us to manage your investment allocation

Investment option	How does it work?
E. Asset Allocator Funds	<p>In Asset Allocator Funds, our fund managers choose how much to invest in stocks, bonds or money market, depending upon their view on the markets.</p> <p>Leave-it-all-to-us: Asset Allocator Funds are suited to those who wish to leave the management of their investment strategy entirely to us.</p> <p>Risk Profile: We manage the funds based upon your risk preference. You can choose amongst three risk levels: Cautious, Moderate and Aggressive. The equity component is restricted, based on the risk profile chosen by you.</p> <p>Equity component may go up to 25% in Cautious, 50% in Moderate and 100% in Aggressive.</p>

Minimum allocation to a fund: Minimum amount of premium direction or redirection in any investment fund should be at least 15% of the annual premium.

Unit price (Net Asset Value) formula: The Net Asset Value will be determined using the market value of assets in accordance with regulatory requirements.

$$\text{NAV} = \frac{\text{Market Value of investments held by the fund} + \text{Value of Current Assets} - \text{Value of Current Liabilities \& provisions if any}}{\text{Number of Units existing on Valuation Date (before creation/redemption of Units)}}$$

The NAV calculated as per the formula shall be declared on our website.

Applicable NAV: New business premiums will be allocated units at the NAV as on the date of commencement of the policy, after completion of the proposal. Switches in, renewal premiums and top-up premiums received before the cut off time at our designated office through local cheque or demand draft payable at par at the place the premium is received, will be allocated the same day's NAV and the one's received after cut off time will be allocated at next business day's NAV. The cut off time will be as per the IRDA guidelines, which is currently 3.00 p.m. Renewal premiums and top up premiums paid through outstation cheque or outstation demand draft will be allocated the NAV of the business day of realization of the cheques or demand draft.

In case you pay your renewal premium in advance, the units will be allocated on the due date of the premium. In case of cancellation of units for charges and valid notification and instructions received at our designated office for switches out, partial withdrawals, surrenders, death claims, we will apply the same day NAV if received

before the cut off time of 3.00 p.m. and next business day's NAV if received after the cut off time of 3.00 p.m.

Investment guidelines: All segregated funds will be managed, subject to compliance with applicable statutory regulations and guidelines. At present, investments in other than approved securities (including third-party mutual funds beyond 5% of fund) cannot exceed 25%. All of the funds will also trade in derivatives, invest in third-party funds or engage in short selling to the extent permitted by the applicable regulations.

Fund management charges: Fund Management Charges are 1.35% p.a. for Equity Growth Fund, Nifty Index Fund, Midcap Fund, Pure Fund, Bond Fund, Income Fund, Liquid Fund and Asset Allocator Funds. We reserve the right to increase charges for any fund by up to 0.75% p.a., with prior approval of IRDA. We will charge you or deduct from your investment amount any taxes, duties or surcharges of whatever description levied or that may be levied by any statutory authority.

description levied or that may be levied by any statutory authority.

New funds: IDBI Federal will introduce new funds, from time to time, to meet changing needs of investors, market conditions and regulatory environment. IDBI Federal may also modify the existing funds subject to IRDA approval. Similarly, old funds may be withdrawn or merged. As a policy owner, the entire suite of investment options under the IDBI Federal InvestmentBasket will be available to you, unless specifically excluded.

Guaranteed Loyalty Additions to boost your wealth

The IDBI Federal Wealthsurance Dreambuilder Insurance Plan boosts your funds through Guaranteed Loyalty Additions at the end of 10th policy year and every 5 years thereafter to reward you for long term investments.

The Guaranteed Loyalty Additions will be as per the following table:

Annual Premium	Guaranteed Loyalty Additions (as a percentage of average fund value corresponding to regular premiums)
₹ 25,000 to ₹ 1,00,000	3.15%

Guaranteed loyalty additions will be a percentage of the average fund value (corresponding to regular premiums) in the last 36 months preceding the loyalty unit allocation date. In case you have invested in multiple funds, the guaranteed loyalty additions will be added to each fund in the same proportion as the fund value in each fund bears to the total fund value.

Guaranteed loyalty additions will not be payable for the fund value corresponding to the top-up premiums paid.

IDBI Federal InsuranceBasket®: Protect your Wealth Plans & Get Living Benefits

Besides allowing you to build wealth, Wealthsurance protects your wealth plans with insurance. While many life insurance products provide benefits upon death, Wealthsurance is designed to also offer Living Benefits. Living Benefits help you to overcome the crisis during your lifetime. The full range of insurance benefits we offer is called the IDBI Federal InsuranceBasket. Please refer to our InsuranceBasket Guide for details of the optional health, accident and disablement insurance benefits which are also available with your Wealthsurance Plan.

Life Insurance Benefit: Get benefits on death

We pay benefits under your Wealthsurance Plan in the event of death.

Death Benefit

We pay Death Benefit in the event of death of the Insured Person due to any cause, natural or accidental. Death Benefit is the higher of the following two amounts:

- Sum Insured or
- The Fund Value in your Investment Account.

Upon payment of Death Benefit, your Wealthsurance Plan is terminated.

You can choose your Sum Insured

In your Wealthsurance Plan, you can choose the Sum Insured within the minimum and maximum limits specified below.

Minimum Sum Insured

The minimum Sum Insured depends upon your age.

- ◆ **If you are less than 45 years old:** The minimum Sum Insured is the higher of (a) 10 times of Annual Regular Premium Amount or (b) 0.5 x Policy Term x Annual Regular Premium Amount.

The protective InsuranceBasket®

- ◆ **If you are equal to or greater than 45 years old:** The minimum Sum Insured is the higher of (a) 7 times of Annual Regular Premium Amount or (b) 0.25 x Policy Term x Annual Regular Premium Amount.

At no time the Sum Insured shall be less than 105 percent of the total premiums (including top-ups) paid, reduced to the extent of partial withdrawals.

Maximum Sum Insured

There is no maximum limit on Sum Insured. The limit, if any, is determined by underwriting.

Exclusions

Death Benefit is not paid in the event of suicide, attempted suicide, or self-injury within 12 months from the commencement of the plan.

Mortality Charge

To meet the cost of Life Insurance Benefit, Mortality Charge is deducted at the beginning of each month by cancellation of units in your Investment Account. Mortality Charge is calculated on the Sum at Risk which is defined as Sum Insured minus Fund Value. If the Fund Value in your account exceeds the Sum Insured, then Sum at Risk is taken as zero.

Charges (excluding service tax, cess and any other statutory levies) for sample ages for a healthy adult are as below:

Per annum per ₹ 1,000 Sum at Risk (₹)							
	Age (years)	25	30	35	40	45	50
Male	Mortality Charge	1.87	1.92	2.21	3.07	4.44	7.21
Female	Mortality Charge	1.79	1.91	1.96	2.47	3.54	5.36

Policy Administration Charge

To meet the costs of your Wealthsure Plan and support the benefits, a policy administration charge is levied. The charge is deducted at the beginning of the policy year by cancellation of units from your Investment Account. Policy administration charge for various premium payment terms is given below and is subject to a maximum of ₹ 6,000 per annum.

- (a) Regular Premium – The policy administration charge as a % of the initial annual premium per annum is as follows:

Annual Premium	First 5 years	Year 6 onwards till the end of policy term
₹ 25,000 – ₹ 1,00,000	6.30%	3.15%

- (b) Top-up Premiums – There will be no policy administration charge for top-up premium.

Optional Insurance Benefits: Protect your plans with Health, Accident and Waiver of Premium Benefits

Besides Life Insurance Benefit, Wealthsurance offers a number of optional insurance benefits. They protect you and your wealth plans if you suffer major diseases, undergo hospitalization, suffer serious accidental injuries, or become disabled.

We offer the following optional benefits by way of riders, which you can choose as needed. You pay for only those benefits that you choose. The charges for the benefits you choose are collected by cancellation of units in your Investment Account. Please refer to our IDBI Federal InsuranceBasket brochure for details, costs, exclusions and conditions of each benefit.

	Major Diseases Benefit UIN: 135C005V01	Hospital Cash Benefit UIN: 135C004V01
Health Benefits	If the Insured Person is diagnosed with any of the 17 specified major diseases, a lump sum cash amount is paid as benefit. The benefit is intended to take care of medical expenses and loss of earnings that result when a major illness strikes. You can choose the Benefit Amount, which can be a maximum of ₹ 50 lakhs but not more than your Sum Insured.
	Waiver of Premium Benefit on Death UIN: 135C003V01	Waiver of Premium Benefit on Total and Permanent Disablement UIN: 135C006V01
Waiver of Premiums	In the event of the death of the Policy Owner, the future regular premiums are waived and treated as paid.	In the event of total and permanent disablement of the Policy Owner, the future regular premiums are waived and treated as paid.

Liquidity through Withdrawals and Surrender

Wealthsurance allows you to build wealth over the long term. At the same time, we recognise that you might have need for funds before maturity of the plan. We offer liquidity with (a) Partial Withdrawals (b) Surrender

Partial Withdrawal

From out of the Fund Value in your Investment Account, you can withdraw money for any purpose by making Partial Withdrawals, subject to the following restrictions:

- No withdrawals are permitted in the first five years.
- After five years, you can make withdrawals as follows:
 - (a) You can make withdrawals whenever you need and as many times as you desire.
 - (b) Each partial withdrawal should be for a minimum of ₹10,000.
 - (c) When you withdraw, the balance Fund Value left in your account should be at least two annual premiums.
 - (d) Top-up premiums paid cannot be withdrawn for five years from the date of the top-up.
 - (e) No withdrawals are permitted if the Insured Person is below 18 years.

Charges

There are no charges for Partial Withdrawals However, IDBI Federal reserves the right to introduce a Partial Withdrawal Charge not exceeding 7.5% of the amount withdrawn, with the prior approval of the IRDA.

Reduction in Death Benefit

If the Insured Person dies before the age of 60, the Sum Insured will be reduced by any Partial Withdrawals made in the preceding two years. After age 60 of the Insured Person, the Sum Insured will be reduced by the total amount of all Partial Withdrawals made after age 58 onwards. In both cases mortality charges would also be reduced corresponding to the reduced Sum Insured.

Surrender

When you wish to terminate your Wealthsurance Plan before maturity, you can surrender your plan. However, you cannot surrender your plan in the first five years.

After completion of five policy years there is no surrender charge, we will pay you the entire fund value as on date of surrender.

Plan your horizon with Policy Term

Policy Term is the maturity period of your Wealthsurance Plan. At the end of the Policy Term, your plan will terminate and you will receive the Maturity Benefit. Your Insurance Benefits will cease.

Choice of Policy Term

The minimum Policy Term you can choose is 10 years and in multiples of 5 thereafter. If the Insured Person is a child, the term of the plan should end after the 18th birthday. There is no maximum Policy Term except that the age of the Insured Person cannot exceed 75 at the end of the Policy Term. In Wealthsurance, you enjoy the benefits throughout the Policy Term. You should choose a Policy Term, based on (a) your investment horizon for building wealth, and (b) how long you wish to enjoy the Life Insurance and other Insurance Benefits. Consider choosing a long Policy Term since you have the option of liquidity through Withdrawals and surrender, if you are in need of funds.

Maturity Benefit

Maturity Benefit is equal to the Fund Value in your Investment account on the date of maturity. Upon payment of the Maturity Benefit, your Wealthsurance Plan is terminated.

Settlement Option

If you so choose, you need not withdraw the entire Maturity Benefit on the maturity date. You can withdraw it in installments as you choose, within five years from the maturity date. During this period, your Fund Value will continue to participate in the performance of unit-linked funds as chosen by you and you will also bear the investment risk as before except where we make specific guarantees. We will continue to deduct applicable charges for fund management. Life Insurance and Optional Insurance Benefits cease at the maturity of the plan and are not provided during the period of settlement.

Convenient liquidity, Choice of term

Tax Benefits of the Wealthsurance® Plan

For premiums paid

Under Section 80C of the Income Tax Act, 1961, the premiums you pay towards your policy are eligible for deduction from your income to the extent of 10% of the actual capital sum assured[#], subject to a limit of Rs. 1,00,000 per year specified under the section (along with other eligible investments).

For benefits received

Under Section 10(10D) of the Income Tax Act, 1961, the benefits you will receive under your policy will qualify for tax exemption, provided the premiums payable in any of the years during the policy term do not exceed 10% of the actual capital sum assured[#]. In case this condition is not fulfilled, the benefits you will receive will be subject to tax. However, the

death benefit is tax-free under Section 10 (10D) of the Income Tax Act, 1961.

You are advised to consult your tax advisor for details. Please note that tax laws may change from time to time, and tax benefits applicable will be as per prevailing tax laws.

[#]Actual Capital Sum Assured: It is the minimum amount assured under the policy on death at any time during the term of the policy, not taking into account the value of any premium agreed to be returned or any benefit by way of bonus or otherwise which is to be received by any person under the policy over and above the sum actually assured.

Change your plan if your needs change

Wealthsurance is designed to meet your changing savings, investment and insurance needs. You can make changes to your plan if your needs change. Wealthsurance is thus a flexible plan which can meet your needs, without the need to have new plans.

When your wealth-building plans change:

Your needs and requirements may change over time and so should your Wealthsurance Plan. You may have the following situations:

- You are not able to pay the premiums you have committed to pay.
 - You wish to build more wealth and want to pay more premiums.
 - You wish to change the way your premiums are invested.
- Your plan gives you flexibility in the following ways:

A. Non-payment of Basic Premiums:

Discontinuing premiums after five years from the commencement date:

After payment of all due premiums in the first five years if you fail to pay premium within the grace period of thirty days, we will send a notice within a period of fifteen days from the date of expiry of the grace period. You are entitled to exercise within a period of thirty days from the receipt of such notice, the option of either revival by

payment of all due premiums or complete withdrawal of the policy. The policy along with the Optional Insurance Benefits will remain in force and the fund value will continue to be part of the segregated funds chosen, till you exercise your option, or till the expiry of thirty days notice period from the date of receipt of the notice whichever is earlier.

If you exercise the option to revive the policy by payment of due premiums within the thirty days notice period, the Insurance Benefits along with the investment made in the segregated funds less applicable charges shall be continued.

If you exercise the option of complete withdrawal or if you do not exercise any option within the thirty days notice period, we will terminate the policy and pay the fund value and the Insurance Benefits including Optional Insurance Benefits would cease.

Discontinuing premiums within five years from the commencement date

In the first five years from the policy commencement date if you fail to pay the premium within the grace period of thirty days from the due date, we will send you a notice within a period of fifteen days from the date of expiry of the grace period. Within a period of thirty days from the receipt of this notice you are entitled to the option of either reviving your policy by paying all due premiums or completely withdrawing the policy.

The policy along with the Optional Insurance Benefits will remain in force and the fund value will continue to be part of the segregated funds chosen, till you exercise your option, or till the expiry of thirty days notice period from the date of receipt of the notice, whichever is earlier.

If you choose to exercise the option of reviving the policy by payment of all due premiums within the thirty days notice period, the Insurance Benefits along with the investment made in the segregated funds, less applicable charges, shall be continued.

On the other hand, if you exercise the option of complete withdrawal or if you do not exercise any option within the thirty days notice period, we will credit the fund value less the discontinuance charge, to the discontinued policy fund and the Insurance Benefits including Optional Insurance Benefits would cease.

The discontinued policy fund is a segregated fund that aims to generate a return by seeking to invest primarily in fixed income investments and will provide a minimum guarantee of the interest rate as applicable to the saving bank account of State Bank of India from the date of discontinuance or such rate as decided by the company with the prior approval of IRDA or as per the prevailing regulations. We will also recover the fund management charge levied on the discontinued policy fund after ensuring the guaranteed return. At the end of the lock-in period of five years from commencement of the policy, we will terminate your policy and refund the proceeds of the discontinued policy.

In case you want to revive your policy, you can opt to revive within two years from the date of discontinuance of policy and not later than the expiry of lock in period subject to meeting our underwriting guidelines. In case you opt to revive your policy within the revival period, we shall add back the discontinuance charges deducted to the fund value and allot units of the segregated funds chosen by you at the NAV as on the date of revival.

Charges for Premium Discontinuance:

In case you fail to pay premiums within five years from the

commencement of the policy and you choose to opt for complete withdrawal of the policy or if you do not exercise any option within the thirty days notice period, we will credit the fund value less the discontinuance charge. The premium discontinuance charge will be decided based on the policy year in which the policy is discontinued.

Policy year in which the policy is discontinued	Discontinuance Charge
1	Lower of 6%* (AP or FV) or ₹ 6,000
2	Lower of 4%* (AP or FV) or ₹ 5,000
3	Lower of 3%* (AP or FV) or ₹ 4,000
4	Lower of 2%* (AP or FV) or ₹ 2,000
5 onwards	Nil

In the above table AP- denotes annualized premium and FV – denotes fund value on the date of discontinuance

Discontinuance Policy Fund

Discontinuance Policy Fund is available only on discontinuance of the policy.

Investment Objective and Strategy	Asset Category	Allocation
The objective of the fund is to invest in a portfolio of money market and fixed income instruments, to generate minimum return as prescribed by IRDA from time to time To keep the volatility of returns low, the fund invests in instruments with minimal market risk, and to minimize the credit risk, the fund invests in money market and high quality fixed income instruments. Fund Management Charge. 0.50% p.a.	Fixed Income Investments including Cash and Money Market	100%
	Returns and Risk The expected returns from the fund would be low and the risk is also low.	

Plan Flexibility

B. Build more wealth by paying more premiums

You can contribute additional premiums into your Wealthsurance Plan to build more wealth by contributing top-up premiums.

C. Change your Investment Options

Your investment preferences may change over time. You can change the mix of your investment options in the following two ways:

- Premium Redirection, which changes the way your future premiums are invested. There is no charge for changing your Premium Redirection.
- Switches which allow you to shift your investment, from one

investment option to another investment option. There are no charges for switches. However, IDBI Federal reserves the right to introduce Switch Charges not exceeding 2.5% of the amount switched, with the prior approval of IRDA.

When your insurance needs change

Over time, your insurance needs may also change. Wealthsurance allows you to increase or decrease the amount of Insurance Benefits and to add or remove Optional Insurance Benefits.

Any increase in benefits is subject to acceptance after underwriting. Any reduction is subject to minimum levels as required by the plan being maintained.

Create Exclusive Funds for loved ones

A useful feature under Wealthsurance is that you will be able to create exclusive funds for the benefit of your loved ones which you can be sure no one will be able to access. These funds are legally protected from creditors and claimants on estate such as legal heirs, parties to disputes or creditors.

Married Women's Property Act

Under Sec 6 of the Married Women's Property Act, 1874, a married man can take an insurance policy on his own life and express it to be for the benefit of his wife or children. When such intent is expressed on face of the policy, it shall be deemed to be a trust for the benefit of the named beneficiaries and it shall not be subject to the control of the husband or his creditors or form the part of his estate. The Act also provides that nothing contained in the provision shall operate to destroy or impede the right of any creditor to be paid out of the proceeds of any policy of assurance which may have been effected with intent to defraud creditors.

Set up Wealthsurance Plan for your loved ones

You can ask for endorsement of your Wealthsurance Plan for the benefit of your wife or children or any combination of them under the Married Women's Property Act. You can also indicate the percentage share of each of them in the plan. Once endorsed, the plan will be exclusively for the benefit of the named beneficiaries.

Nomination

As per Section 39 of the Insurance Act, 1938, you can nominate a person to receive the benefit under this policy. During your lifetime and while your policy is in force, you may at any time, by written notice to us, designate any person or persons as a nominee to whom we shall pay benefits under this policy upon your unfortunate death.

We will register a nomination in your policy schedule, or any change in nomination by endorsing your policy and registering in our records. We will acknowledge the change in nomination to you in writing. The receipt of policy benefits by a nominee shall be a valid discharge of our liability. If on the date of death, there is no surviving nominee, then we will pay the benefits to your estate or legal representative.

Nominations do not apply to any policy to which the Married Women's Property Act, 1974, applies or if you assign the policy.

Assignment

As per Section 38 of the Insurance Act, 1938, you may assign the policy by written notice of assignment signed by you and at least one witness. We shall not be liable to observe any assignment of the policy unless we receive at our head office notice of the assignment in writing signed by both you and the assignee. Following receipt of such notice, we will pay all benefits to the assignee. At your request we will give you written acknowledgement of the receipt of the assignment. If you assign your policy, this will automatically cancel any nomination you have made.

More Benefits

Risks of Unit-linked Products

Unit-linked life insurance products are different from the traditional insurance products and are subject to risk factors. Premiums paid in unit-linked life insurance policies are subject to investment risks associated with capital markets and NAVs of the units may go up or down, based on the performance of fund and factors influencing the capital market and the insured is responsible for his/her decisions.

IDBI Federal Life Insurance Company Limited is only the name of the Insurance Company and IDBI Federal Wealthsureance Dreambuilder Insurance Plan is only the name of the unit-linked life insurance contract and does not in any way indicate the quality of the contract, its future prospects, or returns. The various funds offered under this contract are the names of the funds and do not in any way indicate the

taking out or renewing or continuing a policy, accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the Insurer. (2) Any person making default in complying with the provisions of this Section shall be punishable with a fine, which may extend to five hundred rupees.

Section 45 of Insurance Act: Non-disclosure Clause

“No policy of life insurance effected before the commencement of this Act shall after the expiry of two years from the date of commencement of this Act and no policy of life insurance effected after the coming into force of this Act shall, after the expiry of two years from the date on which it was effected, be called in question by an insurer on the ground that a statement made in the proposal for insurance or in any report of a medical officer or referee or friend of the insured or in any other document leading to the issue of the policy, was inaccurate or false, unless the insurer shows that such statement was on a material matter or suppressed facts which it was material to disclose and that it was fraudulently made by the policyholder and that the policyholder knew at the time of making it that the statement was false or that it suppressed facts which it was material to disclose: Provided that nothing in this Section shall prevent the Insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question nearly because the Terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.”

Free-look Period

As per IRDA regulation 6(2) of Protection of Policyholders' Interest Regulations, 2002, in case you are not satisfied with the terms and conditions of your IDBI Federal Wealthsureance Dreambuilder

quality of these plans, their future prospects and returns.

Please know the associated risks and the applicable charges from your Insurance Agent or the Intermediary.

Section 41: Prohibition of Rebate

Insurance Act, 1938, prohibits an agent or any other person from passing any portion of his commission to the customer whether as incentive or rebate of premium. Section 41 of the Act states:

(1) No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take out or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the Policy, nor shall any person

Insurance Plan, we offer you the option of cancelling your policy within the free look period of 15 days from the date of receipt of your policy document. In that case, you can send us your original policy document along with a request letter stating the reasons for your cancellation. We will refund you the premium paid, subject only to a deduction of the proportionate risk premium for the period of cover, and the expenses incurred by us on medical examination of the Insured Person and Stamp Duty charges. In this event, we are entitled to repurchase the units at the price of the units on the date of cancellation and the refund will vary to the extent of change in the NAV from the date of issue to the date of cancellation of the policy as per IDBI Federal records.
